

SUMMONING DESIRES THROUGH THE ETHER

On this morning, I had awoke to the thought that all things are made of the finest of particles, those that are unseen and intangible. And it is within these finite particles of which all things are created, especially those that are hidden to the human eye.

I decided to explore the depths of these fine particles to further explain the connection between these and our thoughts. I find it odd how no scientist has yet been able to explain the connection between these fine particles and our thoughts. It would seem that science has only managed to build theories of logic to support their limited understanding of how the unseen works.

But I thought to myself, "How does one explain the unseen? There is so much that is unknown! How can the limited human brain possibly prove the power of positive thinking and the manifestation of a BURNING DESIRE, beginning from nothing more than a feeling at the base of my gut? How limited we are to attempt a haphazard theory of such a powerful force! And do we have to completely understand the bridge between our thoughts and the seen and unseen particles that surround us to understand how to use this powerful force to summon wealth?"

These and many other questions grew within me as I remembered reading a paper many years ago that illustrated a drawing of an atom and how there is a magnetic force field of sorts of which multiple atoms are attracted, or "magnetized" together to make a molecule. When many molecules

are attracted to one another, they eventually make the solid things we see when we look around. What was most significant about this illustration was that there seemed to be nothing in between the finest of these finite particles!

Certainly science has found a theory to explain how these finite particles can exist in our world but what they have *failed* to explain is how they are magnetized in such a way to create the particle (an atom) in the first place when the space between is made up of nothingness! This could only mean, perhaps, that the attraction of such particles within the void of nothingness of which it exists, *just is*. I am interested to know how science plans to explain this in the form of theory or hypothesis one day.

For now it would seem that our understanding of these fine particles and how they have come to exist from nothing remains a mystery, because it is something that cannot be explained in text or by complex illustration.

By my observation, it would seem that these fine particles exist by only the 'thought' of its source or Infinite Intelligence. If it is the 'thought' of Infinite Intelligence that magnetizes the smallest of particles together from a void of nothing, then we can assume to have the same ability to use our thoughts to "think" fine particles together to form the "thing" of our desires. To do this would require an unwavering FAITH of which not a single doubt can exist to "think" these fine particles into any configuration of our liking.

Infinite Intelligence does not hold doubt or fear in its ability to create all that we see and do not see from a void of nothing. All that you see, from the flowers and the trees to more dense things like automobiles and freight trains, are all created by Infinite Intelligence from nothing . . . *beginning from a thought!* If Infinite Intelligence has this remarkable power, *so do you!*

The difference between Infinite Intelligence and the common man or woman is its emotional "feeling," or *knowing*, that what it "thinks" into reality, so shall it be. This author, being neither a scientist nor a man of the cloth, is inclined to believe that every man and woman holds this same power

within because we are all a part of this same source power. We are all part of this Infinite Intelligence and always will be. Of course, we hold this power of creation because we were created by Infinite Intelligence from the beginning of time!

The time will come when schools will teach the "science of creation." It is then that this knowledge of creation will be accepted as a science. When that time comes, no man, woman, or child will approach Infinite Intelligence in a state of doubt or fear, for the reason that there will be no such emotion as doubt or fear. I fancy the day when this occurs, but it is unlikely that it will happen in my lifetime.

Why do so many choose lack over abundance? Why do most refuse to use this source power that has always been available to all of us since birth? It is because we have ceased in our belief and knowledge of the existence of such power. Many have long forgotten how to use these powers that are, and always have been, available in an instant, by simply calling upon it.

There is a reason that the alchemists of the centuries past have had the ability to turn lead into gold and water into wine. Do you believe this was a fallacy, only to exist in children's story books and tales of folklore?

Contrary to this belief, there were ancient alchemists who knew of the power of the source in changing the vibration of the fine particles within any given object to transmute it into something different by pulsating a powerful force of vibration through the ether.

Imagine an alchemist who possessed the power to transform a brick of lead to that of the purest gold. He did this with the FAITH and BELIEF in the unseen while altering the waves of vibration through his thoughts, feelings, and emotions as he would emit this unbridled power through the ether to COMMAND this transformation at once! This "magic," as such, was commonplace during periods of human history. This "magic" seems to have been lost over the centuries.

Insofar I believe this power was purposely hidden from the public by the kings of the time to never allow the common man to possess these powerful attributes. Since then,

these legacies have since been reduced to myths and stories of folklore with the idea of having man forget about the existence of such remarkable power.

Their plan to eliminate these secrets from history proved to be successful. Most have forgotten that these powers exist in all men and women from birth and is a necessity along with the ingredients of BURNING DESIRE and FAITH to bring about anything of the mind's desire into reality! This POWER is *essential* for the accumulation of wealth and to rise to the heights of greater achievement.

Children have an innate desire to believe in all things magical. They will use play to act out a show of magic with staged parlor tricks and concocted magical potions. But as children mature, the magic is stripped away as they are sold the idea that their magical world was nothing more than make-believe. Soon after, they recess into the doldrums of the public at large, leaving behind the magic they once thought of as being real.

This also applies to children who have reported having outer world experiences including that of seeing spirits that, upon telling an adult of these sightings, are admonished and condemned for 'imagining' things. They are further convinced that these experiences are not real and are nothing more than ideas from their imagination. How valuable it would be to possess this BELIEF and FAITH in magic throughout an entire lifetime!

The Application of Using Intangible Vibratory Forces

To apply intensely focused thought to a BURNING DESIRE is only part of what is required to translate a goal into reality. The most important detail of your application is to maintain a constant high level of vibration for the purpose of imbuing the finest of particles in the world of the unseen (ether) to bring to creation the coveted goal.

It is important that you understand that positive and negative vibrations cannot occupy the mind and body at

the same time. Lower vibration feelings cannot exist while higher vibration feelings abound! Lower vibratory feelings are the seedlings of poverty and can only bring to you much of the same if you fail to remove these emotions as much as possible. Whether pulsating from people or situations, to express a lower vibratory 'feeling' and emotion is to attract a similar vibration in the form of 'bad luck,' or unfortunate circumstances.

Any high vibratory impulse of thought and 'feeling' which is repeatedly pulsated by force through the ether will be, finally, accepted and mutually met by Infinite Intelligence, which proceeds to translate that impulse of vibratory 'feeling' into its physical equivalent.

Consider again the statement, ALL THOUGHTS WHICH HAVE BEEN EMOTIONALIZED (given the 'feeling' of BURNING DESIRE), WITH A HIGHER VIBRATION AND MIXED WITH FAITH WILL BEGIN IMMEDIATELY TO TRANSLATE THEMSELVES INTO THEIR PHYSICAL EQUIVALENT. What is 'magnetized' to you is following the vibration of which you are vibrating through the ether.

The emotions, or the "feeling" portion of thoughts is the act of pulsating a vibration through the ether, and it is within these powerful vibrations that bring back its equivalent counterpart. The higher vibration will bring back its vibration equivalent, whether the impulse thought and "feeling" is for love, money, or achievement of some kind. The vibration which is pulsated into the ether is the equivalent of what will be mirrored and returned to you.

It becomes of greater importance, above all else, to closely scrutinize the "feelings" of emotion and the vibration of which are being pulsated into the ether, because Infinite Intelligence can only return what was originally given in the form of your vibrations.

There are millions of people who "feel" themselves doomed to lack and failure, because of some strange force over which they "feel" and BELIEVE they have no control. They are the creators of their own state of poverty, because of their negative "feelings" (vibrations) which are then received by the ether and translated into its perfect physical equivalent.

Your "feelings" of impulse or vibrations of your BURNING DESIRE mixed with FAITH will translate into its physical, or monetary equivalent, particularly if waiting in a state of expectancy or BELIEF that the transmutation will actually take place. Your BELIEF, or FAITH, is the element which determines the actions of your subconscious mind. Your 'feelings' of vibration is the necessary ingredient for prompting Infinite Intelligence to respond with its vibration equivalent to bring to you the same physical counterpart.

"Feelings" of having money will bring money. For someone who doesn't have money, there is nothing to hinder you from "deceiving" your subconscious mind by having the "feeling" that money is, indeed, coming.

This is, perhaps, the most difficult discipline in the practice of achieving wealth. You may ask, "How might I 'feel' as though I have money when all I see is poverty around me?"

Remember, you must learn to "deceive" the subconscious mind by "feeling" the vibration of money while having FAITH, or BELIEF that the money will come very soon. THOUGHTS WHICH ARE MIXED WITH ANY OF THE "FEELINGS" OF EMOTIONS, CONSTITUTE A "MAGNETIC" FORCE WHICH ATTRACTS, FROM THE VIBRATIONS OF THE ETHER, OTHER SIMILAR PHYSICAL, OR MONETARY EQUIVALENTS. A vibration thus "magnetized" with the "feeling" of a high vibration emotion will always attract its precise equivalent, or duplicate counterpart.

If you look around and all you have experienced is poverty and failure, this is what has been "magnetized" to you from the vibration equivalent of which you have pulsed through the ether. Just as you have "magnetized" poverty, instead you can change the "feelings" of vibration you are pulsating to the ether to that of money and success. You have the power to change the course of your reality by changing the vibratory "feelings" you are sending into the ether.

In the beginning, I mentioned the success of Kate Smith, and how for years she sang, without money, and without price. What I didn't disclose was how she used her voice to raise her vibration to beckon success to her through the "feelings" she pulsed through the ether as she sung in her daily

vocal practice. She used her voice to raise her vibration and used this high state of being to then 'call' success to her with the "feeling": that she had already made it on Broadway.

While countless singers had come and gone, they failed because they did not know how to pulsate the "feeling" that they were destined to be on Broadway. But not Miss Smith. She was able to conquer Broadway by transferring her BURNING DESIRE into thought and "feeling" vibrations that she pulsed through the ether with the BELIEF that she had already made it. And make it she did!

Broadway soon came calling, and when it did, Miss Smith named her price in figures so high that her one week's salary was more than what most people make in a year. And she did it by raising her vibrations to pulsate that 'feeling' of success during her daily vocal practice.

You can use the emotions of DESIRE, FAITH, LOVE, SEX, ENTHUSIASM, ROMANCE, HOPE, or any emotion of high vibration that can open a connection between you and Infinite Intelligence so that you may benefit from all of the greatness that this UNSEEN POWER has to offer. However, the negative emotions of FEAR, JEALOUSY, HATRED, REVENGE, GREED, SUPERSTITION and ANGER should be avoided because these emotions cannot bring to you any BURNING DESIRE of a higher vibration.

The power of FAITH and BELIEF mixed with emotional "feelings" and THOUGHT is the highest form of vibration known. This living, pulsating, vibratory energy which permeates every atom of matter, and fills every niche of space, connects every human to Infinite Intelligence, or the source.

This Infinite Intelligence will, through the thirteen principles, be able to assist in transmuting DESIRES into concrete, or material form, provided that one "magnetizes" these DESIRES through the practice of raising vibratory energy frequently and often. This is the Master Key to truly attracting the riches you desire.

This much the author does know: there is a power, or a source, or an Infinite Intelligence, which permeates every atom of matter, and embraces every unit of energy perceptible and concealed to man, and that this Infinite Intelligence

is alive and well in *all* things. Without this Intelligence, *all matter would cease to exist*. The author has this knowledge, particularly that of using this Intelligence, because he used the connection to this power to bring these very words and success principles to you.

The space between the finite particles is very much alive, that it is the highest form of vibration known, excepting, perhaps, the vibration of THOUGHT which controls this "nothingness." You can choose to control this power to develop the life circumstances which you have always desired, or you can choose to be a victim of the lowly thoughts and vibrations you are releasing into the ethers. The possibility of the latter seems terrible, particularly because there is a choice, and bargaining for a life of poverty, instead of a life of enjoying abundance, is foolish.

Now that you know the practicability of the thirteen principles, it is time to apply this philosophy to accumulate riches through the transmutation of your desires. Do not delay a moment longer, for a world of great abundance awaits!

In parting, I would remind you that "life is a checkerboard, and the player opposite you is TIME. If you hesitate before moving, or neglect to move promptly, your men will be wiped off the board by TIME. You are playing against a partner who will not tolerate INDECISION!"

Previously you may have had a logical excuse for not having forced Life to come through with whatever you asked, but that alibi is now obsolete, because you are in possession of the Master Key that unlocks the door to Life's bountiful riches.

The Master Key is intangible, but it is powerful! It is the privilege of creating, in your own mind, a BURNING DESIRE for a definite form of riches. There is no penalty for the use of the Key, but there is a price you must pay if you do not use it. The price is FAILURE. There is a reward of stupendous proportions if you put the Key to use. It is the satisfaction that comes to all who conquer self and force life to pay whatever is asked.

The reward is worthy of your effort. Will you make the start and be convinced?

"If we were related," said the immortal Emerson, "we shall meet." In closing, may I borrow his thought, and say, "If we are related, we have, through these pages, met."
